

2023 DEX BREAKFAST PROGRAM

7:00-7:30 Setup & Breakfast

7:30-7:45 John Ahern *Intro & DEX Wiki launch*

7:45-8:00 Alan Brown Managing Director, Radica Broadcast Services, UK

Alan will be discussing using the Davicom Cortex system to control transmitter N+1 systems.

8:00-8:15 Denis Barriault Director of Engineering, Dougall Media, Thunder Bay, ON

Denis will be presenting: "More than remote site management. Dougall Media is too small to have a staffed Network Operations Centre, therefore they use their Davicom network of devices to help mimic a NOC. They also discovered that their Davicom's are great AI appliances indispensable to have in their broadcast facilities."

8:15-8:30 Derek Murphey Network Production Software Manager and Chief Engineer at Northwestern Media

Derek will be telling us about how he uses his Davicom unit and SNMP to automate switching and failover between a main and auxiliary transmitter site.

8:30-8:45 Richard Sondermeyer, President, GS Broadcast Technology Services, Toronto, ON

Richard will be presenting: AM transmitter site control using a CORTEX360 working with a PLC via MODBUS.

8:45-9:00 Marco Auriti Chief Engineer, Touch Canada Broadcasting, Edmonton, AB

Marco will be showing how he uses the virtual inputs to monitor his audio sources and transmitter settings as well as to control relays to change settings on the transmitter when the main audio fails and returns.

9:00-9:20 Louis-Charles Cuierrier Director of sales & marketing, Davicom

Louis-Charles will be presenting our NEW AXON site management modules.

9:20-9:30 John Ahern

\$250 Amazon gift certificate door prize drawing and final wrap-up
